Current Legislation?

Air Quality--Tobacco & E-Smoke & Tax

There are several bills in our counties and others in our legislature affecting our state's air quality. For more information, contact the Coalition for Tobacco Free Hawaii, 591-6510 and speak to Tiffany or email Valerie@hawaiicopd.org about how you can help us all have cleaner air for all and fewer youth hooked on nicotine.

Oxygen & Other Equipment

There is also a bill to improve patient and healthcare provider access to durable medical equipment companies in Hawaii. For more information about this, email Valerie@hawaiicopd.org.

Virtual Lobby Week--Support Respiratory Therapists

From March 21 to April 1, please contact Congress via emails, letters and phone calls to let our elected Congress men and women know that we patients, respiratory therapists and supporters need H.R.2619 Medicare Respiratory Therapist Access Act of 2013. This will allow qualified, registered respiratory therapists directly supervised by physicians to be reimbursed for their education and care of patients with COPD, asthma and other lung conditions. Go to this link on the American Association for Respiratory Care website for more information. http://www.aarc.org/advocacy/lobby_week_exp/
